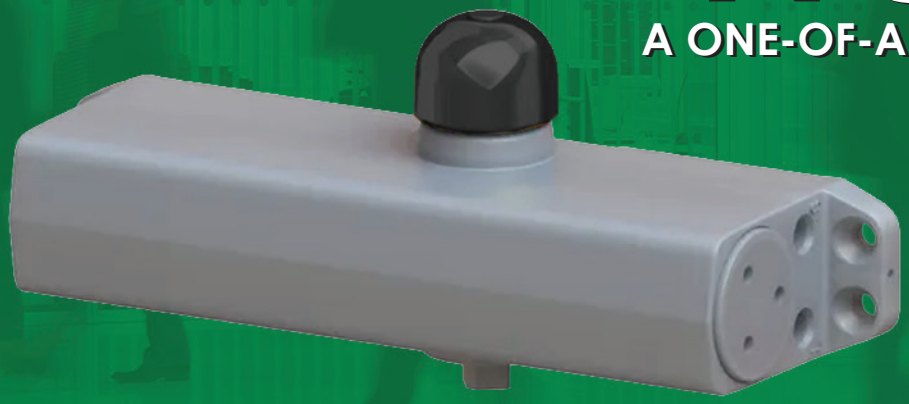
NORBELL

A ONE-OF-A-KIND DOOR NOTIFICATION



NORTON RIXSON

ASSA ABLOY

A one-of-a-kind door notification, as the door is opened the NorBell utilizes the rotation of the door closer pinion to create it's iconic chime. This door opening notification solution was designed for minimal impact on the door, frame and overall appearance. Mitigating damage, creating tamper-resistance, and keeping dangling objects out of the door threshold.

Features

- Concealed, low impact design
- Clear ringing noise
- Tamper resistant
- Available in a variety of finishes to either match your door closer, or to draw contrast with a clear coated brass finish
- Uses the rotational energy of the pinion to strike the bell

Benefits

- Simple installation
- Clear indication of entry by customers, employees, or anyone else who may be using the door
- Mounts in a discreet location
- Does not damage doors unlike other notification solutions
- No batteries, wires, or electronics involved
