IML SECURITY SUPPLY

TORUS 5

INTELLIGENT ELECTRONIC KEY CABINETS

TORUS

Simplify Access Control With Smart Electronic Key Management Systems

Access control for physical keys is a vital part of any organization's security strategy. Torus Electronic Key Cabinets provide a cloud-native, intelligent key management solution that helps you track, control, and monitor keys in real time from anywhere at anytime.

Stop wasting time handing out keys, searching for lost keys or re-keying your sites. With Torus, you can have complete key control at your finger tips and ensure only authorized personnel can access their keys.

With comprehensive reporting and real-time notifications, Torus allows you to manage your sites from anywhere in the world. Harnessing the power and security of cloud-native technology, Torus will elevate the efficiency, security and safety of any workplace.
