

BOSCH
Invented for life

IML Security Supply increased stock of Bosch products to help fulfill customer requests and faster shipping.

As one of the world's leading systems integrators, Bosch delivers tailored solutions for building security, fire life safety, building automation, and energy efficiency. They offer a comprehensive portfolio of reliable and future-proof safety systems — from panels and detectors to software solutions to improve operations.

Products include:

Alpha Numeric Keypads

Door and Window Contacts

Relay Modules

Request to Exit Sensors

Motion Detectors

Control Panels

Wireless Receivers

Glass Break Detector
