

IML SECURITY SUPPLY: NEVADA

3910 Graphic Center Drive - Las Vegas, Nevada 89118

Security Door Controls Lunch And Learn

Since 2012, when SDC launched QuietDuo™ - the first Motorized ELR Kits to convert mechanical exit devices - we've been "quietly" leading in electric latch retraction (ELR) upgrades for access control. This includes retrofit solutions for most brands of exit devices as well as innovative SDC exit devices & mortise locksets with factory installed ELR and automatic door operators with a built in 1 amp power supply.

Join us and become an expert in Motorized ELR Solutions.

Some of the topics covered include:

- Low energy automatic operators
- Electrified motorized ELR exit devices
- Retrofit motorized ELR kits
- Motorized ELR mortise locks

They will also review their offerings of ADA compliant accessories, standalone locksets, electric strikes, electromagnetic locks and delayed egress.
