

AxisBlu™

SARGENT AND GREENLEAF®

AxisBlu Safe Lock Enabled By Bluetooth

With AxisBlu, you don't have to choose between convenience and security. AxisBlu combines the latest Bluetooth® technology upgrades with our proven Titan lock body to create a radical new option for safe security—accessing your safe securely via mobile app.

AxisBlu is the first secure safe lock with a no keypad option. Users may choose from a sleek, modern medallion or our tried-and-true traditional gun safe lock keypad.

BLUETOOTH INNOVATION

- Leverages the latest Bluetooth upgrades to bring the technology up to S&G's stringent security standards.
- New functionality and multiple levels of authentication in mobile devices make AxisBlu's Bluetooth connectivity a reliable, fully secure method of access.
- Bluetooth range up to 30 feet

PROVEN SECURITY

- Firmware enhancements allow our proven Titan lock body to function securely with a mobile device using Bluetooth technology.
- Available in our proven PivotBolt configuration

MOBILE APP

- Pair up to 5 mobile devices along with ten users
- Compatible with Android and Apple mobile devices that support Bluetooth 4.2

FLEXIBILITY

- Field programmable from keypad and mobile app
- One million 6-digit PINS to choose from
- One master code, one supervisor code and seven user codes
- Management reset code
- Time delay override code
- Two modes of operation: multi-user, manager/employee

RETROFIT

- Standard S&G Magic Module footprint to match the mounting dimensions of most mechanical and electronic locks.
- Universally handed and reversible: Left hand, right hand, vertical up or vertical down mounting.

WARRANTY

- Two years from the date of shipment from manufacturer
