

ELECTRONIC LOCKER LOCKS AND LEVERS

Codelocks offers an extensive product range that allows the products to service a wide variety of applications. The locks can be newly installed or retrofitted, and many products can be re-programmed on the door, without the need to remove the lock. Product lines include heavy duty locks that are ideal for high traffic applications, locks with full-sized lever handles, and the option to choose between surface and mortise deadbolts and latches.

CL5210 LOCK

Heavy-Duty Lock For High Traffic Applications

Unlike the other electronic locks, the CL5000 has a conventional 3x4 button keypad layout for instant familiarity, providing quick programming with a multiple range of functions. Particularly suitable for use in health, educational, commercial and residential environments.

Part#: CDLCL5210

KL1000 KITLOCK

Compact Digital Locker Lock

This neat lock is easy to fit, taking just a few minutes to remove the existing cam lock and making an additional top fixing. KL1000 Classic can also be fitted to a locker or cabinet that does not have an existing locking device - just drill another hole.

Part#: CDLKL1006KIT
