

HIKVISION

IML Now Stocking Hikvision

Hikvision has user-friendly, highly scalable solutions and offers excellent support to help security professionals and integrators meet their customers' needs. Hikvision manufactures a full suite of products and solutions for a broad range of vertical markets.

Smart Pro IP Solutions

The Smart Pro IP solutions are an ideal option for professional applications, as they bring intelligence, efficiency, and convenience to video surveillance.

Value Plus Series and Value Series

This advanced compression captures surveillance video using a decreased bitrate, reducing bandwidth requirements and storage costs.

TurboHD Camera

Based on HD-TVI technology, Hikvision's TurboHD" products provide high definition (HD) video over coaxial cable at distances of up to 1500 feet.

Value Express TurboHD DVR

Value Express ERT-F2xx DVRs support up to 1920 x 1080 Resolution on 4 and 8-ch models, and up to 4K output resolution and on 16-ch versions.

Plug & Play NVR

These Value NVRs manage bandwidth and storage with the latest H.265+ compression technology.
