

# VON DUPRIN

## 75 AND 78 SERIES EXIT DEVICES

The 75 and 78 Series are a narrow and wide stile exit device that are ideal for heavy duty warehouse, industrial, office, multifamily, retail, and commercial real estate applications.

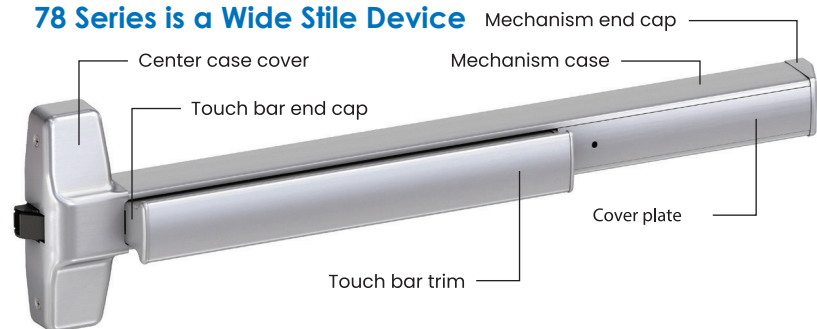

Von Duprin's 70 Series also can be configured with the Quiet Electric Latch Retraction (QEL) option, which provides electronic control of an exit device where limited operational noise is desired.

### Features and Benefits

- ANSI/BHMA Grade 1 certified and backed by Allegion services and support
- Available in a wide range of device types, options, lever designs and finishes
- Available in 3' and 4' lengths that are field sizeable for single and double door applications

### 78 Series is a Wide Stile Device

### 75 Series is a Narrow Stile Device
