

The Future of Home Security

Part #: 2GIGEDG-NA-VA

2GIG EDGE Security and Automation Panel

The 2GIG EDGE panel sets a new benchmark in form and function with its sleek design that is thinner and more powerful than ever. Our on the edge processing technology is the difference that enables touchless disarm and the industry-first home security system with built-in face recognition and analytics within the panel itself – so private data stays private for greater peace of mind.

Touchless Convenience

Integrated face recognition and Bluetooth technologies significantly streamline operation. No putting down grocery bags to disarm the system

Increased Data Privacy

Processing analytics on the edge versus the cloud better protects homeowner information.

Smart Home Capabilities

Ability to customize with controls, rules, scenes, and notifications. Plus, the 2GIG EDGE panel opens the door to future smart home/automation up-sell opportunities.

Partitioning/Smart Areas

Intuitive, easy to use partitions. Independently secure and control up to 4 separate areas of the house or small business.

Extra Security

Packed with built-in features homeowners demand – onboard camera, 2-way audio, cell radio, glass break sensor.

Live View Video

Cameras and doorbell cameras work with the 2GIG EDGE panel, with up to 8 different camera feeds viewable directly from the panel. View 4 camera feeds at a time.
