DETEX

Detex has strived to build products that could be trusted to perform by engineering and manufacturing products designed for high use and abuse. Listening to and working together with Security Professionals, Architects, Maintenance Supervisors and Contractors allows them to make innovative changes in current products, as well as introduce new products for today's increasing life safety and security requirements.

IML Security Supply has brought in more than 100 NEW SKU's increasing our DETEX stocked inventory to over \$1.5 Million.
