

# HIGH-SECURITY 8 PORT AUXILIARY CONTROLLER

Part#: PDKA8

PDK's Aux 8 is an easy to install input/output board built to handle any auxiliary devices for your system. Built with PDK Red technology, the Aux 8 has built-in Ethernet connectivity and self discovery to simplify IP configuration and functionality.

In addition, wireless and PoE++ communication are available with the PDK wireless or module kits. The Aux 8 helps you provide full control or monitoring of up to eight different auxiliary devices.

## + input monitoring

Monitor and report on any device tied into the Aux 8 controller. Whether door position sensors, push buttons or motion devices, the Aux 8 has you covered.

## ⚡ power monitoring

Equipped with an onboard power supply and a fully-supervised power circuit that monitors input, output, battery voltage, and overall controller health.

## ▶ plug'n'play connectivity

All PDK Red devices were designed to be plug n' play. That means they're easy to install right out of the box. It's simple to add any device, no matter how large the job is.

## ↑ self discoverable

The Red Aux 8 will be automatically discovered by the Cloud Node when an Ethernet cable is connected; it is not necessary to enter the IP address; the device is self-discoverable.

Ask an IML Representative for more information and product availability.
