Save Space, Time And Money

Pemko's latest groundbreaking innovation the patent pending PemKconnect Modular Hinge was designed with you in mind. With a **50% reduction** in packaging size, this multi-piece continuous hinge conveniently fits through doors, elevators, into vans; and can even be stored on shelves. Whether for new construction or retrofit, this modular option is available with three Pemko Continuous Hinge models in 12", 83" or 95" lengths, giving you a solution for any job condition.

Features

- Packaged in a 45" box
- Hinge segments fit together easily
- ANSI/BHMA A156.26 and UL Certified
- Equal number of bearings as a traditional continuous hinge
- Can be cut in field

83" Hinges come in 2 hinge segments, net length 82-13/16"

95" Hinges come in 3 hinge segments, net length 94-13/16"
