

Indication Solutions

Patented, 180-Degree,
High-Visibility Lock
Status Indicator Trims

SCHLAGE

Schlage indication trims are first and foremost about making people feel safe and secure. Nowhere else is there a greater need for this than in K-12 schools. Across the United States, efforts have been made to understand security weaknesses and develop guidelines to make schools safer. Among the common themes that arise from these studies is the need for the locked or unlocked status to be easily visible on doors.

Schlages best-in-class mortise, cylindrical and deadbolt visual indication trims feature large windows displaying unmistakable red and white messaging that can be viewed from any angle - even at a distance. It's security you see from a brand you trust.

- The largest viewing windows in the market
- Maximized message size
- Patented, 180-degree visibility
- Available dual (inside and outside) indication options
- Red and white backgrounds to serve color blind needs
- Extensive functional options
- Durable, best-in-class products made to perform
- Available retrofit kits for mortise installations

Great for Education, Retail, Health Care, Airports,
Commercial Real Estate, Churches, Factories and Arenas.
