

# DEM680E

## DELAYED EGRESS MAGNALOCK

**SECURITRON<sup>®</sup>**  
**ASSA ABLOY**

Building on the technology of the Securitron EcoMag Series, the DEM680E is a direct replacement for the iMXDA. Designed for applications that require a lock that delays the opening of a door, the DEM680E standard model is HUGS-compliant with specific code compliant models also available. For use on interior and perimeter exit, single, out-swinging doors.

- Autosensing dual voltage with microprocessor technology - no field adjustment required
- Patented BondSTAT magnetic bond sensor and integrated Door Position Switch (DPS)
- Instant release circuit - no residual magnetism
- Easily visible LEDs indicate status on secure side of door
- Fully integrated delay and detection features for fast installation of delayed egress system
- Size optimized to work with door closers
