

WI-FI VIDEO DOORBELL

HOME SECURITY MADE EASY

SKYBELL® HD
WI-FI VIDEO DOORBELL

Redefining Home Security In A "Smart" Home With The New Narrow Trim

Always know who's at your door with the SkyBell Trim Plus Doorbell. Similar to the brand's HD doorbell, the Trim Plus boasts 1080p high-definition video resolution, night vision and access to the related Android and iPhone app. But the Trim Plus comes with two bonus features: a smaller design and optional battery power.

HD Video

See your visitor up to 1080p HD and with 5x zoom.

Hear & Speak

2 way audio means you can enjoy a full conversation with your visitor.

Motion Sensor

SkyBell alerts you when a visitor is 15 ft front of your door, even if they don't press the button.

Free Video Recording

SkyBell records each video, so you may download or watch them anytime.

Activity History

Review the day's events while you were away; includes missed visitors, answered video calls and motion alerts.

Theft Guarantee

If your SkyBell is stolen, we will replace it free of charge.

Snap photos

Capture a photo of your visitor with the touch of a button in 1080p / 720p HD.

Rugged

Only SkyBell can work between -40 and 140 degrees F.

Color Night Vision

Feel safe knowing you can see a visitor at night—in full color HD video from 15 ft.

Live Monitoring

Monitor your front door at any time by starting the video from the app.

Multiple Users

Multiple people can receive alerts to answer the door and you can have multiple device on each account.

Quiet Mode

Turn off your home's doorbell chime from the app so it won't wake up a baby!

Requires use of smartphone or tablet, and a high-speed internet connection Operating System (smartphone / tablet):
- Apple iOS 8.2 or later, Android 4.4 or later.
