KEY MANAGEMENT MADE SIMPLE AND SECURE

TORUS

Complete Control At Your Fingertips

Torus is the key to protecting your assets, people and reputation. Harnessing the latest technologies for security and peace of mind, Torus will elevate the efficiency, security and safety of your workplace. With fewer people needing physical contact with your keys and each other, your workplace with thrive in a post-COVID world.

Torus gives you complete control of your organizations keys, cards and tags. Cabinets can be easily deployed anywhere in the world without needing to install software or allocate IT resources. Torus integrates with a wide range of access control systems

Uniquely Scalable

Perfect for organizations with multiple locations, nationally or internationally, you can deploy Torus across regions, departments and buildings – quickly and easily.

Security That's Second To None

Torus keeps your data safe and private with best practice encryption and identity management. This includes multi-factor authentication and one-time PINs.

Unified Real Time Control

Enjoy faster, more informed decision making with insightful dashboards, graphs and historical data available globally, at all times.

Effortless To Install

The ultimate 'plug and play' solution, your Torus cabinets will securely connect to Torus software via the internet. No software installation or server space required. No IT management necessary.

SMS And Email Alerts In Real Time

With a highly flexible engine for delivering custom notifications to different users, Torus allows you to keep the right people informed when keys are not returned or if any designated events occur.

A Solution For The Future

Our hardware is built to last and our software is the subject of agile development and continuous improvement. This makes Torus a long-term investment in your workplace.
