

# BRING IT HOME WITH DORMAKABA

## The BEST 9K Series

The 9K has long been a top choice for its quick installation, safety and durability. The 9K series is designed to deliver exceptional results in more applications with durability that exceeds ANSI Grade 1 requirements and options to accommodate a host of potential requirements. No assembly, drilling or re-keying required. It's the easiest upgrade you'll ever make.

## QDC100 Series

Built with robust materials and designed for easy customization and retrofit, the QDC100 delivers lasting security for even the most rigorous applications. When you need a closer that delivers premium performance and flexibility and can withstand heavy use, trust the QDC100.
